# THE INSIDE STORY

34 years of helping teachers and students better understand the science, technology and issues related to our environment and natural resources.

**SINCE 1985**, we've been helping teachers and students better understand the science, technology, and issues related to our environment and natural resources.

### WE BELIEVE IN EXPERIENTIAL LEARNING TO ENRICH THE CURRICULUM.

Our team of educators work directly with teachers and students every day to create first-hand experiences and hands-on learning opportunities that leave a lasting impact.

### WE FOCUS ON KEY TOPICS AND TODAY'S ISSUES WITH AN EYE TO THE FUTURE.

We give students and teachers the knowledge, skills and tools to be innovative leaders and take action on topics related to the environment and natural resource development today and tomorrow.

### WE MAKE OUR PROGRAMS ACCESSIBLE ACROSS ALBERTA.

Our programs are offered at no-cost to schools and our team of educators travel across the province ensuring that all schools have equal opportunity to access our programs and resources.

### WE BRING TOGETHER EXPERTS THAT REPRESENT MULTIPLE PERSPECTIVES.

Working collaboratively we encourage participants to be well-informed, critical thinkers and stewards of our environment and natural resources.

“Thanks to all who made this and other PDs possible for teachers and students. You are empowering us to create a mindset and scope of possibilities for future generations.”

- Jacinth Brissett | Teacher  
Jack James High School, Caglary,

## THANK YOU PARTNERS

To our partners and friends, we extend our sincere appreciation for helping us achieve our mission of supporting teachers and inspiring students. We simply could not do our work without you.
